Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: in claims 29 and 39, receiving information regarding a frequency hop scheme is missing from the prior art. Further, the wireless mobile terminal entering the third coverage area and the wireless mobile terminal initial connection being transferred to the intermediate unit is missing from the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The Shieh reference (5424727) is similar to applicant's claimed invention. In figure 1, element 11 is the access unit, element 15 is the payment extraction unit, and element 13 is the intermediate unit. However, there is no connection transferred between elements 11 and 13. Also, there is no mention of a frequency hop scheme in the reference.
